

Electrical Services

landfill systems

engineering a better environment

Landfill Systems hold NICEIC Approved Contractor status. Our scope of approval includes electrical installations in Hazardous Areas.

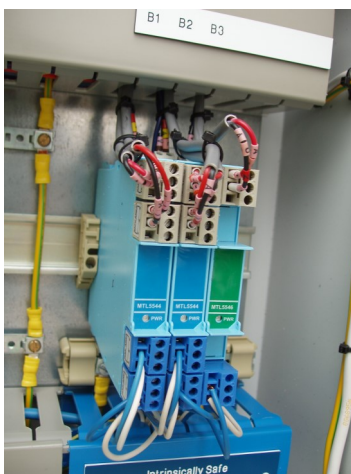

We are experienced in the design and installation of new control systems and the upgrade and integration of existing systems.

We also offer:

- ◆ Single circuit design, installation and certification to BS7671
- ◆ Design and installation of complete LV systems including certification to BS7671
- ◆ Design and installation of complete earthing systems
- ◆ Electrical installation condition reporting

Contact us now for a free no obligation quotation.
